Why Choose Us

Premium cars require matching performance. Our films matches natural beauty with sound scientific research for the ultimate in window film style and performance. With Rikecool's flagship heat rejection film, say goodbye to the harmful Ultra Violet Rays and glaring sunlight whilst driving. Find out more about our film's performance specifications below.

** Infra radiation heat measurements are tested using a wavelength of 1200 nm to 1400 nm.*
** (Front 85% / Rear 28%) is compliant to Singapore LTA's requirements. Rear half of vehicle is darker and compliant.*
